CEMEX team members in Georgia and Texas to train in a market-wide event, covering 12,000 miles on their journey to Zero-Tolerance. Our CEMhospital Communities Plant and Balcones Quarry have both achieved 600 injuries-free milestones in 20 months without a recordable or lost-time injury. Congratulations to our Cleveland and Balcones teams for putting safety first each and every day, and to all of our other operations who have also achieved milestones of their own result. Keep up the great work and stay focused on action-based safety.

Our Brooksville Quarry team is helping educate Hernando County students with its second annual OSP program. The program, which took place on July 19, featured discussions on safety, general and Florida laws, and more, and concluded with 101 opportunities for non-violent persons to have redemptive efforts recorded. The teachers shared seven hands-on educational opportunities, including a foul dig and a four shafts of green. Our communities team at Seahorse South Central Cemetery. They also added a black, red in a train track and made their own concrete block. What are you creating an example of ourselves currently exuding?

Jeffrey McCone, a ready-mix truck driver out of our Sun San Plant in Arizona, has been awarded the Arizona Rock Products Association’s Driver of the Quarter for Second Quarter 2017. The award is given each quarter to honor the contributions of Arizona’s best truck drivers. It recognizes the driver’s career achievements, safety performance, professional and customer service skills. Jeffrey will be recognized with the award at the association’s meeting in August. Way to represent CEMEX (USA) our people.

Managers from across the country are enhancing their safety leadership skills through the CEMEX Health & Safety Academy. So far, more than 160 managers have completed the academy’s Foundation Course, the first of three three-month modules. More than 500 managers will attend this year. The second module of the training is already underway, and the third module is expected to roll out in late 2019. Special thanks to our 40plus trainers and administrative support teams for making the academy such a great success.

Our Texas Region is facing the fight against cancer as a sponsor of the Leukemia & Lymphoma Society. Our Bright 1st and 1st Craigian Yacht Club in Coastal Texas, the event took place on July 29 and raised $18,491.00 to benefit The South Central Texas Chapter of the Leukemia & Lymphoma Society. CEMEX has sponsored the events since inception, that’s one of the many ways we’re helping building a better future in the Lone Star State.

Cancer Progression Profile: Blood. Kimberlin, Stephanie, Kimberlin started her cancer career with CEMEX as a summer intern at our Brooksville Cement Plant in 2016. After spending a summer in the production department, she stayed on at summer and returned full-time in May 2017 as an association engineer. In May 2017, Kimberlin transferred to the Year Round Operations, where she’s currently training as a project manager. Kimberlin says the most rewarding part about working for CEMEX is the sense of teamwork and a team of people who are working towards a common goal.

Our Nova Scotia team is also helping in the fight against cancer, supporting Team Lufthansa Flights in the American Cancer Society’s Relay for Life in Falmouth. The event is a 24-hour relay around a track. Each team has a monitor running on the track for the duration of the event, because cancer never sleeps. To 24-milers, Team Lufthansa Flights completed a whopping 30 miles. The team members raised $2,350 for the ACS. Team Lufthansa Flights is comprised of the family, friends and friends of Meta, a 10-year CEMEX team member in Falmouth.
