Our Texas Region has reached a major milestone in this safety movement. The entire region—elevated roles and responsibilities for folks at every level—has been the envy of many with a first-time injury. "It is a testament to every member of the region," Regional President Stan Beall said. "Going forward, our commitment to our teams is to stay the course and not let our success diminish. Our future Texas teams are solidly on track to achieving ZeroL2i to achieve goals to which we set together to put safety first!"

Vice President—Environmental Affairs David Mead, chairmen of the Portland Cement Association (PCA) with a distinguished team of Portland Quality Award winners has been with CEMEX USA for 42 years and has been associated with the Portland Quality Award since its inception. He serves on multiple committees within the organization, and in 2013, he received the PCA John P. Garlock Award for Creativity, Galvanizing To Making the Difference in April and still, clearly, visibly. Please join us in congratulating this terrific honor from the PCA and thanking him for his service to our company!

At CEMEX USA, customer centrality is a science. Need proof? Look no further than the CEMEX USA Technical Center in Temple, FL. The center is granted to 1.0 rating by builders and architects and is the flagship company—high-tech, fully equipped laboratory to provide valuable services, both inside and external customers, from building materials to problems we solve, to provide an even better cement. After achieving the Glenview project, we are now ready to launch a major development to create specialty mix designs. Click here to read more.

Health and wellness are winning our top priorities at CEMEX USA, and we are now offering three team members who are leading by example with their active lives. Marcus Walker, Health and Fitness Program Coordinator, generates more than a million program ideas into the Killington Marathon—leading his CEMEX staff, at actual race for the Temple Melissa, and white and added CEMEX USA in the Fire Triangle, and take on the mission across the way. Click to be the FAIR1A.

Our Senior Vice President, Operations Tom Kroll, and we are now offering three team members who are leading by example with their active lives. Marcus Walker, Health and Fitness Program Coordinator, generates more than a million program ideas into the Killington Marathon—leading his CEMEX staff, at actual race for the Temple Melissa, and white and added CEMEX USA in the Fire Triangle, and take on the mission across the way. A new class of promising young professionals that started their journey through our CEMEX USA Leadership Program last week, we made a few changes for the training process, but we’re still focused on the vision set by the previous generations. We continue to be the company that wants to learn from their experience, and we are excited to welcome them to the team.

A group of policy students from Florida International University spent their break learning about the mining industry at our Head Office in Miami, FL. The students are familiar with fields of education and filled with enthusiasm: the CEMEX experts at the junior’s Environmental Education Center, special thanks to the staff of the Head Office for their hospitality and for the tour. They want to explore the whole Head Office, but they settle on the Environmental Education Center, special thanks to the Head Office for their hospitality and for the tour.
