Cemex is committed to engaging with its stakeholders in order to be aware of their needs and expectations and make appropriate changes to improve its performance and sustainability. This is why we are launching a comprehensive Engagement Survey, which will help us take the necessary steps to improve our operations and services.

The survey is open to all Cemex employees and will be available until 30th October 2023. Your participation is essential for us to create a better workplace environment.

Cemex is proud to support the American Heart Association (AHA) to help increase awareness and understanding of heart health and stroke prevention. This collaboration aims to create a healthier community and improve the quality of life for everyone.

In addition to the survey, we are encouraging our employees to participate in the AHA’s Heart Walk and support this important cause.

We also want to highlight the importance of mental health and wellness for our employees. To support the National Department of Mental Health Awareness, Cemex is proud to sponsor the National Mental Health Conference 2023, which will be held in October.

This conference aims to raise awareness and promote education on mental health and wellness, providing a platform for experts to share their knowledge and experiences.

Thank you for your continued support and dedication to Cemex. Together, we can make a positive impact and create a better future for everyone.

Cemex

Cemex was recognized as an outstanding performer in a comprehensive environmental, social, and governance (ESG) study by the Global ESG Registry. This recognition reflects our commitment to sustainable practices and contribution to the global community.

Cemex North America is proud to announce the establishment of the Cemex Black-Owned Business Development Initiative (BOBDI). This initiative is designed to support and promote Black-owned businesses in the construction industry.

Cemex is committed to fostering diversity, equity, and inclusion in all aspects of our business. We encourage all employees to participate in the BOBDI by providing opportunities for Black-owned businesses to participate in our projects and contracts.

Cemex is also committed to supporting and encouraging women in the construction industry. The Women’s Workforce Development Program is designed to provide training, mentorship, and support to women who want to pursue a career in the construction industry.

In addition to these initiatives, Cemex is also committed to supporting education and training programs for all employees. We have partnered with local universities and organizations to provide opportunities for professional development and career advancement.

Thank you for your continued support and dedication to Cemex. Together, we can make a positive impact and create a better future for everyone.
